Nashville, TN

PROFILE

I was born and raised in Nashville, Tennessee. I decided to get into software development as a way to transition out of construction and manual labor work, and found the algorithmic problem solving to be rewarding and exciting.

SKILLS

- JAVASCRIPT
- REACT
- HTML
- CSS
- JSON
- GIT/GITHUB
- PYTHON
- SQL
- DJANGO

PROJECTS

Pedal-Grab | Individual Project [View Code](#)

This was my first capstone project at NSS. The goal was to create an application where a user could upload, edit and remove data from a database of products that they could add to a cart.

Tech Used: React.js

Screamer | Individual Project [View Code](#)

This was my final capstone project at Nashville Software School. Screamer is a movie database where once a user is logged in, they can upload, edit and delete movies that they wish to add to the database.

Tech Used: Python/Django, React.js

EDUCATION

Nashville Software School

Certificate; Software Development

TECHNICAL EXPERIENCE

Software Developer

JAN 2022 - JUNE 2022

Nashville Software School

Intensive full-time, six months software development bootcamp focusing on Python/Django development fundamentals and problem solving. The final three months of the program being executed in a simulated company environment with SCRUM methodology.

- Daily hands on application of OOP fundamentals through group and individual projects
- Created single page applications in JavaScript, as well as in the React framework
- Project management/tracking with GitHub project boards and issue tracking
- Source code/version control with Git/GitHub
- Solution Design: white-boarding and wireframes
- Leveraged Django for creating and editing server-generated web applications
- Created RESTful API's with Django REST framework
- Retrieved and stored database information with SQLite
- Practiced testing with Python's unit test framework

PROFESSIONAL EXPERIENCE

Commercial HVAC Technician
